Direct Connect
By
Air-Way Manufacturing Company

Air-Way Manufacturing Company is introducing their new “Direct Connect” product line. The design of this new product provides advantages over the commonly used 45° and 90° hose ends. This new design is available in a 90° or 180° connections in both 37° Flare and ORFS designs. Some of the advantages of Air-Way’s “Direct Connect” are...

- Improved hose assembly routing
- Increased hose life
- Easier replacement of hose assemblies when necessary
- Reduced stress on 45° and 90° hose end assemblies
- Utilizes straight hose ends for easy assembly while reducing costs
- Improves fluid flow characteristics

For further information on the “Direct Connect” product, please contact Air-Way’s Sales Department at (T) 800-253-1036 (F) 269-749-2025 (E) sales@air-way.com
